## OUR VISION

Danziger specializes in research and development of new ornamental crops and varieties.

We aim to maintain and strengthen our position as a global leader in breeding, production and marketing of plant material.

We strive to reach this goal through advanced research, innovation, excellence, diligence and determination, in Israel and around the world.

We are personally committed to our customers and employees, conducting fair business while respecting nature and the environment.

Together with our employees, we are passionate about our creation, powered to surprise and imagine more.

### **Our values:**

- Passion and Innovation
- Excellence and expertise
- Diligence and ongoing research
- Solid business ethics
- Committed to customers and employees
- Teamwork and family environment

**Dear Partners,**

Spark your imagination.

This is what we took upon ourselves at Danziger, when we launched our renewed branding this past year. Times are changing quickly.

Technology, competition, disruptive innovation, global trends and politics are all evolving at a high speed. Yet, some truths stay the same: family, love, people, appreciation for nature, respect for others.

We are proud to take a leading part of encouraging and developing the floriculture industry; to launch new varieties, bring new depths into our brands and stories, improve our production and operation and mostly- always IMAGINE MORE.

We see you, our partners in this wonderful industry, as an integral building block for innovation and development.

Through innovative floriculture, creative collaborations, and a spark of imagination we strive to bring the next, better, big thing.

**Sincerely yours,**

**Gaby Danziger, CEO**
